Profile Summary

Full Stack Developer with 6 months of internship experience and full-stack projects built independently —Product store application and a real-time interview platform with video and chat. Comfortable owning backend logic while building clean, functional frontends. Focused on writing code that actually works, not just looks good on paper.

Experience

Internship

Aug 2024 - Feb 2025

MERN stack Intern at ONE TEAM Solutions EdTech Pvt Ltd.

- Developed and maintained web application features for an EdTech platform using Node.js, Express, and MongoDB.
- Collaborated using Git workflows including branching, pull requests, and code reviews in a team environment
- Assisted in building and testing RESTful APIs for the core EdTech platform features

Projects

BuyNext: Product Store Application | *React.js, TypeScript, Express.js, PostgreSQL, Drizzle ORM, Clerk, Neon* [LiveDemo](#) [GitHub](#)

- Built a full-stack product store application with secure authentication, product management, and comment functionality using React, Express.js, and PostgreSQL.
- Designed and implemented RESTful APIs with TypeScript and Drizzle ORM, including relational database schemas for users, products, and comments.
- Integrated Clerk authentication for secure user sign-in and protected routes, with user synchronization between Clerk and PostgreSQL.

BrainBin: Full Stack Note Application | *React.js, Express.js, Node.js, MongoDB, Docker, Upstash, TailwindCSS* [LiveDemo](#) [GitHub](#)

- Built a full-stack note management application supporting CRUD operations with RESTful APIs and persistent MongoDB storage using Express.js and React.
- Designed a responsive UI with Tailwind CSS and DaisyUI ensuring smooth user experience across all screen sizes
- Implemented Redis-based **API rate limiting** and deployed the application using **Render**.
- Containerized the backend service using Docker to ensure consistent development and deployment environments.

Talent-IQ: Interview Platform | *React.js, Express.js, Node.js, MongoDB, Tailwind CSS, Clerk, Stream.io*

[GitHub](#)

- Developed a full-stack interview platform with live coding, **real-time video calls**, and **chat functionality**
- Integrated **Stream.io API** for real-time video and chat between interviewers and candidates
- Implemented **Clerk authentication** for secure user login and session management

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js, Vite, Tailwind CSS

Backend: Node.js, Express.js, TypeScript

Database: MongoDB, PostgreSQL, Drizzle ORM

Tools & Platforms: Git, GitHub, Docker, Postman, Render, Vercel, Railway, Neon

Education

DCA, Kerala State Rutronix (2023-2024) | Higher Secondary, Boys HSS Punalur (Commerce) (2021-2023)

Certifications

Certified MERN Stack Developer – ONE TEAM Solutions EdTech
