Phone: +91 8891796886

Location: Punalur, Kerala

EDUCATION

DCA, Kerala State Rutronix 2023–2024 | Higher Secondary, Boys HSS Punalur (Commerce) 2021–2023

SKILLS SUMMARY

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js, Vite, Tailwind CSS

Backend: Node.js, Express.js, TypeScript

Database: MongoDB, PostgreSQL, Drizzle ORM.

Platforms & Tools: Git, GitHub, Docker, Neon, Postman, Render, Vercel, Railway.

EXPERIENCE

Internship

Aug 2024 – Feb 2025

MERN stack Intern at ONE TEAM Solutions EdTech Pvt Ltd.

- Developed and maintained web application features for an EdTech platform using Node.js, Express, and MongoDB.
- Collaborated using Git workflows including branching, pull requests, and code reviews in a team environment
- Assisted in building and testing RESTful APIs for the core EdTech platform features

PROJECTS

BuyNext: Product Store Application | *React.js, TypeScript, Express.js, PostgreSQL, Drizzle ORM, Neon, Clerk*

[Live Demo](#) [GitHub](#)

- Built a full-stack product store application with secure authentication, product management, and comment functionality using React, Express.js, and PostgreSQL.
- Designed and implemented RESTful APIs with TypeScript and Drizzle ORM, including relational database schemas for users, products, and comments.
- Integrated Clerk authentication for secure user sign-in and protected routes, with user synchronization between Clerk and PostgreSQL.
- Developed responsive frontend interfaces using React, Vite, and Tailwind CSS with dynamic product pages and user profile features
- Deployed the complete production-ready application on Railway with frontend assets served through Express.js and PostgreSQL hosted on Neon.

BrainBin: Full Stack Note Application | *React.js, Express.js, Node.js, MongoDB, Docker, Up-stash, Tailwind CSS*

[Live Demo](#) [GitHub](#)

- Built a full-stack note management application supporting CRUD operations with RESTful APIs and persistent MongoDB storage using Express.js and React.
- Designed a responsive UI with Tailwind CSS and Daisy-UI ensuring smooth user experience across all screen sizes
- Implemented Redis-based **API rate limiting** and deployed the application using **Render**. Developed responsive frontend interfaces using React, Vite, and Tailwind CSS with dynamic product pages and user profile features
- Containerized the backend service using **Docker** to ensure consistent development and deployment environments.

Talent-IQ: Interview Platform | *React.js, Node.js, Express.js, MongoDB, Clerk, Inngest*

[Live Demo](#) [GitHub](#)

- Built a full-stack real-time interview platform supporting coding interview sessions, protected dashboards, and live interaction features using React.js and Express.js.
- Implemented secure authentication and route protection using Clerk with session-based user access control.
- Developed RESTful APIs and integrated MongoDB for storing interview session and application data.
- Added real-time workflow/event handling using Inngest and designed scalable backend architecture with modular routes and middleware.
- Configured production deployment with Express static frontend serving and environment-based application setup.

CERIFICATIONS

- **Google AI Professional Certificate — Google / Coursera**
Topics: Prompt Engineering, Generative AI, Responsible AI, AI Workflows, AI-assisted App Building.
- **Certified MERN Stack Developer — ONE TEAM Solutions EdTech**
